

RUDRAPRASAD SATAPATHY

Java Backend Developer | Spring Boot | Microservices

+91-7008348676 | rudraprasadsatapathy21@gmail.com | linkedin.com/in/rudraprasad-s | github.com/Rudraprasadd | Bhubaneswar, India

SUMMARY

Java Backend Developer with hands-on experience designing REST APIs and Spring Boot microservices, including JWT/OAuth2 authentication, Apache Kafka messaging, and gRPC inter-service communication. Skilled in Docker containerization, relational database design (MySQL, PostgreSQL), and unit testing with JUnit and Mockito. Oracle SQL Certified Associate and Wipro Java Full Stack certified; available to join immediately as a full-time Software Developer.

TECHNICAL SKILLS

- Languages: Java (8/17), SQL
- Backend Frameworks: Spring Boot 3, Spring MVC, Spring Data JPA, Spring Security, REST APIs, gRPC, Microservices Architecture
- Security & Auth: JWT, OAuth2, Keycloak
- Databases: MySQL, PostgreSQL
- Messaging & Communication: Apache Kafka, gRPC, REST
- Testing: JUnit, Mockito, Unit Testing, Integration Testing
- DevOps & Tools: Docker, Git, GitHub, Maven, Gradle, Swagger/Open API, API Gateway, CI/CD Fundamentals
- Frontend (Familiar): HTML, CSS, Tailwind CSS, Bootstrap, Thymeleaf, React, JSP
- Practices: Agile/Scrum, SOLID Principles, OOP

PROJECTS

Patient Management System | Spring Boot Microservices

Java, Spring Boot, REST APIs, Apache Kafka, gRPC, Docker, JWT, API Gateway, MySQL, PostgreSQL | [GitHub](#)

- Designed a microservices-based patient management platform with JWT authentication, role-based access control, and Apache Kafka for asynchronous, event-driven messaging between services.
- Implemented gRPC for high-performance inter-service communication and REST APIs for external client access, reducing service coupling.
- Containerized all microservices with Docker and routed traffic through a centralized API Gateway; used MySQL and PostgreSQL for polyglot persistent storage across services.

Smart Contact Manager

Java, Spring Boot, Spring Security (JWT/OAuth2), Spring Data JPA, MySQL, Thymeleaf, Tailwind CSS | [GitHub](#)

- Built a secure, scalable contact management platform with Google and GitHub OAuth2 login and JWT-based session handling.
- Implemented full CRUD operations backed by Spring Data JPA and MySQL, with server-side validation and structured exception handling.
- Integrated Cloudinary for cloud-based image storage and delivery, decoupling media handling from the application server.

URL Shortener

Java, Spring Boot, Spring Security, JPA, Bootstrap CSS, Thymeleaf, MySQL, Maven | [GitHub](#)

- Built a full-stack URL shortener with custom short-link generation, expiration handling, and role-based access control (admin/user) using Spring Security.
- Designed the relational schema and JPA entity mappings in MySQL to support link analytics and expiration lifecycle.

EXPERIENCE

Data Annotation Engineer — Qualitas Global, Pune

Dec 2025 – May 2026

- Annotated and validated 500+ image and text data points daily to support AI/ML model training, maintaining high labelling accuracy across structured workflows.
- Followed structured QA processes to ensure data consistency and quality across real-world production datasets.

Java Intern — Sentientware Tech Solutions, Berhampur

Jun 2025 – Jul 2025

- Completed a 30-day intensive Core Java internship building and debugging Java applications, with focus on OOP, JDBC, Collections, and exception handling.
- Delivered working modules under mentorship, translating requirements into tested, maintainable Java code.

EDUCATION

Bachelor of Technology in Computer Science & Engineering

Aug 2022 – Jun 2026

GIET University, Gunupur

CERTIFICATIONS & AWARDS

- Oracle Database SQL Certified Associate — Oracle
- TalentNext Java Full Stack — Wipro
- Master Spring Boot 3 & Spring Framework 6 with Java — Udemy
- Java Training — Spoken Tutorial, IIT Bombay
